Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	0	0
No Race/Ethnicity Reported	1	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐ No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

We work closely with our primary partner district, Jackson-Madison County Schools, to ensure that we are meeting their staffing needs and preparing our candidates for the district's specific curricular expectations during clinical practice. Our cohorts of special education candidates and general education candidates collaborate in many of the same content area classes with a strategic focus on meeting the needs of all learners. Our clinical experience matrices across the programs of study ensure that each candidate has experience in a wide variety of settings: urban, suburban, and rural. Additionally, these experiences are designed to facilitate candidate interaction with learners from varying socioeconomic backgrounds and those with specific learning disabilities and/or language learning needs.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

- [Quantifiable Goals](#)

Report Progress on Last Year’s Goal (2022-23)

1. Did your program prepare teachers in mathematics in 2022-23?

If no, leave remaining questions for 2022-23 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

With respect to mathematics education, our goal was to increase program enrollment by at least one candidate for the 2022-2023 academic year. During this time frame, we admitted four undergraduate candidates pursuing licensure in secondary mathematics (6-12).

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

We have seen great success in offering EDU 150 (Foundations of American Education) early in undergraduate students' college experience. Students may take this course as an elective, and it provides the opportunity to explore the teaching profession through coursework and an observational field experience placement. Enrollment in this course has increased over the past two academic years, and we are retaining a large number of students in the program following this course.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We have discovered that offering students the opportunity to get into a classroom from their very first semester is powerful in terms of discerning interest

in the profession and retention in the program.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2023-24)

7. Is your program preparing teachers in mathematics in 2023-24? If no, leave the next question blank.

☒ Yes

☐ No

8. Describe your goal.

For the 2023-2024 academic year, our goal is to increase program enrollment in the area of mathematics by a minimum of one candidate. At the time of the submission of this report, we have not admitted any additional mathematics candidates to the program.

Set Next Year's Goal (2024-25)

9. Will your program prepare teachers in mathematics in 2024-25? If no, leave the next question blank.

☒ Yes

☐ No

10. Describe your goal.

For the 2024-2025 academic year, our goal is to increase program enrollment in the area of mathematics by a minimum of two candidates.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

If no, leave remaining questions for 2022-23 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

With respect to science education, our goal was to increase program enrollment by at least one candidate for the 2022-2023 academic year. During this time period, we admitted one candidate pursuing licensure in Biology 6-12 to the program.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Over the course of the past several years, we have learned that many students pursuing a major in the sciences at our institution are planning to go to graduate school or to pursue other vocations with their degrees in these content areas. We have seen much more interest in teaching this discipline within our job-embedded (alternative) graduate program.

Report Progress on Last Year's Goal (2022-23)

1. Did your program prepare teachers in instruction of limited English proficient students in 2022-23?

If no, leave remaining questions for 2022-23 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

With respect to Teaching English as a Second Language education, our goal was to increase program enrollment by at least one candidate for the 2022-2023 academic year. During this time frame, we did not admit any candidates to the Teaching English as a Second Language program.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

As noted in the science content areas, we have observed that interest in Teaching English as a Second Language licensure has significantly decreased at the undergraduate level. However, we have noticed a trend in current educators' returning to our institution to add this endorsement to their existing licenses.

6. Provide any additional comments, exceptions and explanations below:

When we established our goal for the 2023-2024 academic year, we were not aware that the undergraduate Teaching English as a Second Language (TESOL) major would be discontinued at our institution. This decision was made during the spring 2024 semester based on a number of factors, including very low enrollment and changes in program staffing. Therefore, we are no longer recruiting for this licensure area at the undergraduate level.

Review Current Year’s Goal (2023-24)

7. Is your program preparing teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

- ☐ Yes
- ☒ No

8. Describe your goal.

Set Next Year’s Goal (2024-25)

9. Will your program prepare teachers in instruction of limited English proficient students in 2024-25? If no, leave the next question blank.

- ☐ Yes
- ☒ No

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(\\$205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Currently, teacher candidates learn how to integrate technology into instruction while taking methods courses and while in the internship. In their internship classrooms, they experience ways that local educators integrate technology into instruction with students and for learning as appropriate. Additionally, Union's lesson plan format includes a section where candidates plan for the effective use of technology in instruction. During the internship, candidates complete edTPA which requires that they plan and implement a learning segment to meet the goals, objectives, and learning needs of individuals and sub-groups. The effective integration of technology, as available and educationally appropriate, is a component of this overall process. All undergraduate teacher licensure candidates are also required to take a course focused on technology-rich learning as a strategic supplement to the continued integration of technology into methods courses. Additionally, a course centered exclusively on assessment has been a component of the curriculum since 2020, and this course includes the use of technology in collecting, managing, and analyzing data to improve teaching and learning.

Provide the following information about your teacher preparation program.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

General education teacher candidates learn how to instruct students with disabilities effectively by taking a progression of coursework that begins with an overview of all types of exceptionalities and legislation that determines their teaching responsibilities. This information is applied in instructional design coursework as they determine which of the nine universal adaptations will be used in lessons and as they implement the adaptations when they work one-on-one with students struggling in math and reading. Further, they are taught strategies for differentiating instruction and addressing the stipulations in Individual Education Plans. When teacher candidates are in the internship, they are required to plan a series of lessons that includes adaptations for students with special needs. Further, they submit a portfolio in which they analyze pre- and post-assessment data from students to determine the effectiveness of their instruction and to identify which students need remediation and/or further accommodations. Candidates have a wide variety of clinical experiences which include inclusion settings and schools with diverse populations of students.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

As noted above, general education teacher candidates take a progression of coursework that begins with an overview of all types of exceptionalities and legislation that determines their teaching responsibilities—including their responsibilities as members of IEP teams. In the internship year, candidates participate (as allowed) alongside their mentor teachers in IEP team meetings, and they are responsible for implementing students' IEPs as co-teachers in the classroom. Additionally, they are responsible for documenting the effectiveness of their work with students with disabilities in their culminating licensure assessment, edTPA.

c. Effectively teach students who are limited English proficient.

Much like the above methods to equip candidates to work with students with disabilities, general education teacher candidates also learn about meeting the needs of English Language Learners in coursework and through field experience placements in local P-12 settings. Additionally, we have added a course to the undergraduate program of study which centers around cultural competency, and this course has been very well-received by candidates as they gain knowledge about the importance of being a culturally-responsive, student-focused educator.

2. Does your program prepare special education teachers?

☒ Yes

☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Special education teacher candidates learn how to instruct students with disabilities effectively by taking a progression of coursework that begins with an overview of all types of exceptionalities and legislation that determines their teaching responsibilities. This information is applied in instructional design and targeted special education coursework as they determine which of the nine universal adaptations and other appropriate teaching

strategies will be used in lessons and as they implement the adaptations when they complete specific field experiences and the internship. Additionally, they are taught strategies for differentiating instruction which informs the adaptations that should be included in an individualized education plan. When special education teacher candidates are in the internship, they are required to plan a series of lessons that includes all appropriate adaptations for students with special needs. They subsequently complete and submit a portfolio in which they analyze pre- and post-assessment data from students to determine the effectiveness of their instruction and to identify which students need remediation and/or further accommodations. Candidates have a variety of clinical experiences which include inclusion and self-contained settings in schools with varying, diverse student populations. Special education candidates, in particular, see a broad range of interventions and settings related to serving students with disabilities effectively within their progression of field experience placements throughout their programs of study.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

As noted above, special education teacher candidates take a progression of coursework that begins with an overview of all types of exceptionalities and legislation that determines their teaching responsibilities—including their responsibilities as leading members of IEP teams. In the internship year, candidates participate (as allowed by the LEA and parents/guardians) alongside their mentor teachers in IEP team meetings, and they are responsible for implementing students' IEPs as co-teachers in the classroom. With their mentor teachers' guidance, special education teacher candidates work within the state's documentation system for IEPs as preparation for becoming teachers of record responsible for managing the IEP process and accompanying documentation. Additionally, they are responsible for demonstrating the effectiveness of their work with students with disabilities in their culminating licensure assessment, edTPA.

c. Effectively teach students who are limited English proficient.

Much like the above methods to equip candidates to work with students with disabilities, special education teacher candidates also learn about meeting the needs of English Language Learners in coursework and through field experience placements in local P-12 settings. Additionally, we have added a course to the undergraduate program of study which centers around cultural competency, and this course has been very well-received by candidates as they gain knowledge about the importance of being a culturally-responsive, student-focused educator.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Union University is an independent, faith-based liberal arts university in Jackson, TN, with branch campuses in Germantown (outside Memphis) and Hendersonville (outside Nashville). The university offers undergraduate and graduate degrees, including the Master of Arts in Education, Master of Education, Education Specialist, and the Doctor of Education. Most students enrolled in the traditional licensure program complete the Bachelor of Arts, Bachelor of Science, or Bachelor of Music degree. Union University's Educator Preparation Program has been approved by the TN Department of Education since the mid-1950's and nationally accredited since 2000 (CAEP; NCATE). Currently, Union offers programs in a wide variety of endorsement areas. The Tennessee State Board of Education issues an annual report card for each state-approved Educator Preparation Program, and Union University continues to receive ratings of meeting and/or exceeding expectations. Please see <https://teacherprepreportcard.tn.gov/teacher-prep/1826-T/overview> for the most recent report.
