

Physical Therapy Program

This information is intended as a general guide. It is imperative that each student follow a program that will meet the admissions requirements at the professional school(s) to which application is to be made, and it is crucial that each student work closely with the advisor to plan a suitable course of study in preparation for the application process.

Required Courses	
Written Composition I	ENG 111
Principles of Biology I	BIO 112
Zoology	BIO 210
Advanced Human Anatomy and Physiology I	BIO 307
Advanced Human Anatomy and Physiology II	BIO 309
Human Gross Anatomy	BIO 322
General Chemistry	CHE 111
Chemical Equilibrium	CHE 112
Introduction to Physics	PHY 213
Introduction to Physics	PHY 214
Introduction to Psychology	PSY 213
Abnormal Psychology	PSY 317
Principles of Sociology	SOC 211
Precalculus	MAT 116
Statistics	MAT 114
Physiology of Exercise	PEWS 414

GPA of Average Entering Student 3.5 – 3.6

Students should accumulate 50+ hours of clinical observation in multiple settings or clinical areas of practice prior to applying for admissions to graduate programs in physical therapy.
